- Product weight: 21 kg
- Weight incl. Packaging: 24 kg
- Color cabinet: Frost Silver
- Set dimensions (W x H x D): 532 x 479 x 468 mm

Power
- Mains power: AC 220 - 240 V +/- 10%
- Power consumption: 54 W Normal Operation W
- Standby power consumption: 7.5W

Highlights

Integrated clock display
The built-in clock display, which is also a wake-up alarm, eliminates the need and investment for an additional clock with cables and connections in the room. Automatic time synchronisation via teletext and preservation of alarm settings during short power outages further enhances guest comfort

Wireless SmartLoader
Provides the ability to copy easy and wireless all programmming settings from one TV set into other TV sets in less then a minute. The feature ensures uniformity between TV sets and significantly reduces installation time and costs.

Built-in FM radio
The integrated FM radio offers guests additional comfort without the extra investment in radio receivers.

External loudspeaker connector
Amplified audio connector for easy installation of external speakers (like for bathrooms), eliminating the need for investments in external equipment

Welcome message
A welcome greeting is displayed each time the TV set is switched on.

Volume limitation
This feature predefines the volume range with which the TV set is allowed to operate, preventing excessive volume adjustments and avoiding disturbance of next door guests.

Front Controls Locking
Prevents unauthorised access to TV functions

Switch On Channel Programming
Perfect for in-house advertising or information channels as it allows to show a predefined channel when the TV is turned on.

Security Menu Access
Provides conditional access to installation and configuration settings via a special code or master remote control

ESP™
Feature can be selected in the set-up menu. The TV can be switched off automatically after a specified period of use saving energy and provide extended product life time. The selectable range is from 0 to 99 hours.

Battery Low Detection
This feature informs of the need to replace the remote control batteries preventing nuisance calls and unneccessary replacement of batteries.

Multi Language Teletext
Allows users to select their preferred language supported by the teletext characters

UIR-Link+
Makes it possible to connect a Set-top box to the tv and let the STB control the tv. Tamperproof, allows PREVIEW function, no tuner required in the STB, one remote control for STB and TV
